KEY INFORMATION

Star Fox returns to its roots with a blistering space shooter on the Nintendo DS.

- Lylat needs help. Players hop into their Arwing fighter and fight through a unique branching storyline of missions, all rendered in gorgeous 3-D.
- *Star Fox DS* brings a whole new strategic element to the series with a commander's view of the mission. Using the touch screen, players can draw the routes they and their teammates will take, then battle the enemies they encounter as they take over bases and strategically advance across the map.
- Players can blow their friends out of the sky as they dogfight with up to eight players over a local wireless connection or take on up to four players from around the world on Nintendo Wi-Fi Connection.
