### **KEY INFORMATION**

Survive nature's most devastating catastrophes in *Disaster: Day of Crisis*, a panic-inducing survival game for Wii. In a devastatingly short period of time, an unprecedented wave of natural disasters has pummeled the United States. On top of this inexplicable series of disasters, a rogue special forces unit has taken advantage of the chaos and seized a nuclear weapon. Only Ray, a former member of an elite rescue task force, has decided to take a stand.

- Cutting-edge physics and gripping visuals re-create the sheer terror of major catastrophes.
- Players race a car down a mountain to escape a roaring pyroclastic flow, dodge toppling buildings during a devastating earthquake and swim for their lives in a raging flood. No matter what happens, fight to survive.
